## LNG Expansion as Catalyst

- **Economy**
  - Qatar's GDP growth as per IMF is projected at approximately 6.1% in 2026, and 7.8% in 2027, supported by the North Field expansion, large-scale infrastructure spending, and resilient non-hydrocarbon sectors.
- **Fiscal Strength**
  - Qatar's 2026 fiscal plan prioritizes strategic Third National Development Strategy (NDS3) investments, utilizing conservative oil pricing to ensure long-term resilience and expand non-hydrocarbon revenue streams.
  - Rating agencies have affirmed Qatar's sovereign rating in 2025 with a stable outlook.
- **Sector Growth**
  - Resilient performance continues across non-hydrocarbon sector including logistics, manufacturing, tourism, and trade.
  - Key initiatives include the QR 20bn Simaisma development, fertiliser capacity doubling to 12.4 mtpa by 2030, and the National Manufacturing Strategy targeting 3.1% CAGR by 2030.
- **North Field Expansion (NFE)**
  - Qatar remains one of the world's leading LNG exporters, alongside the U.S and Australia, its central role in global energy markets.
  - The North Field Expansion is progressing as planned, increasing LNG capacity to 126 mtpa by 2027, with a further expansion targeting 142 mtpa by 2030.
  - Downstream diversification with USD 6 billion petrochemical project, the Middle East's largest ethane cracker, from 2026.
- **Policy**
  - The NDS3 targets average economic growth of 4%, with USD 100 billion in FDI, and leadership in business and digital competitiveness by 2030.
  - Qatar Launches National AI Firm to Advance Digital Transformation/Fin Tech, aimed at developing advanced digital ecosystems to support innovation and contribute to sustainable development.

# Our strategy is designed to turn our strong foundations into sustainable growth

## VISION

To be Qatar's banking partner of choice, creating long term value for our customers, our people and our shareholders

## AMBITION

Build a stronger, sustainably profitable bank through continuous innovation and disciplined risk, compliance, capital and cost management

## STRATEGIC PRIORITIES

### RETAIL

Accelerate growth in Qatari customer segments

Maintain leadership in expat segment

Protect the strength of core retail businesses, including cards, employee banking and remittances

Deepen retail and wealth relationships

### WHOLESALE

Focus lending growth on higher-return customer segments and high growth sectors

Continue to invest in transaction banking proposition

Rebalance revenue mix toward capital-light, fee-based income

Workout legacy exposures

Improve capital efficiency through deployment of capital into higher return business and management of our property portfolio

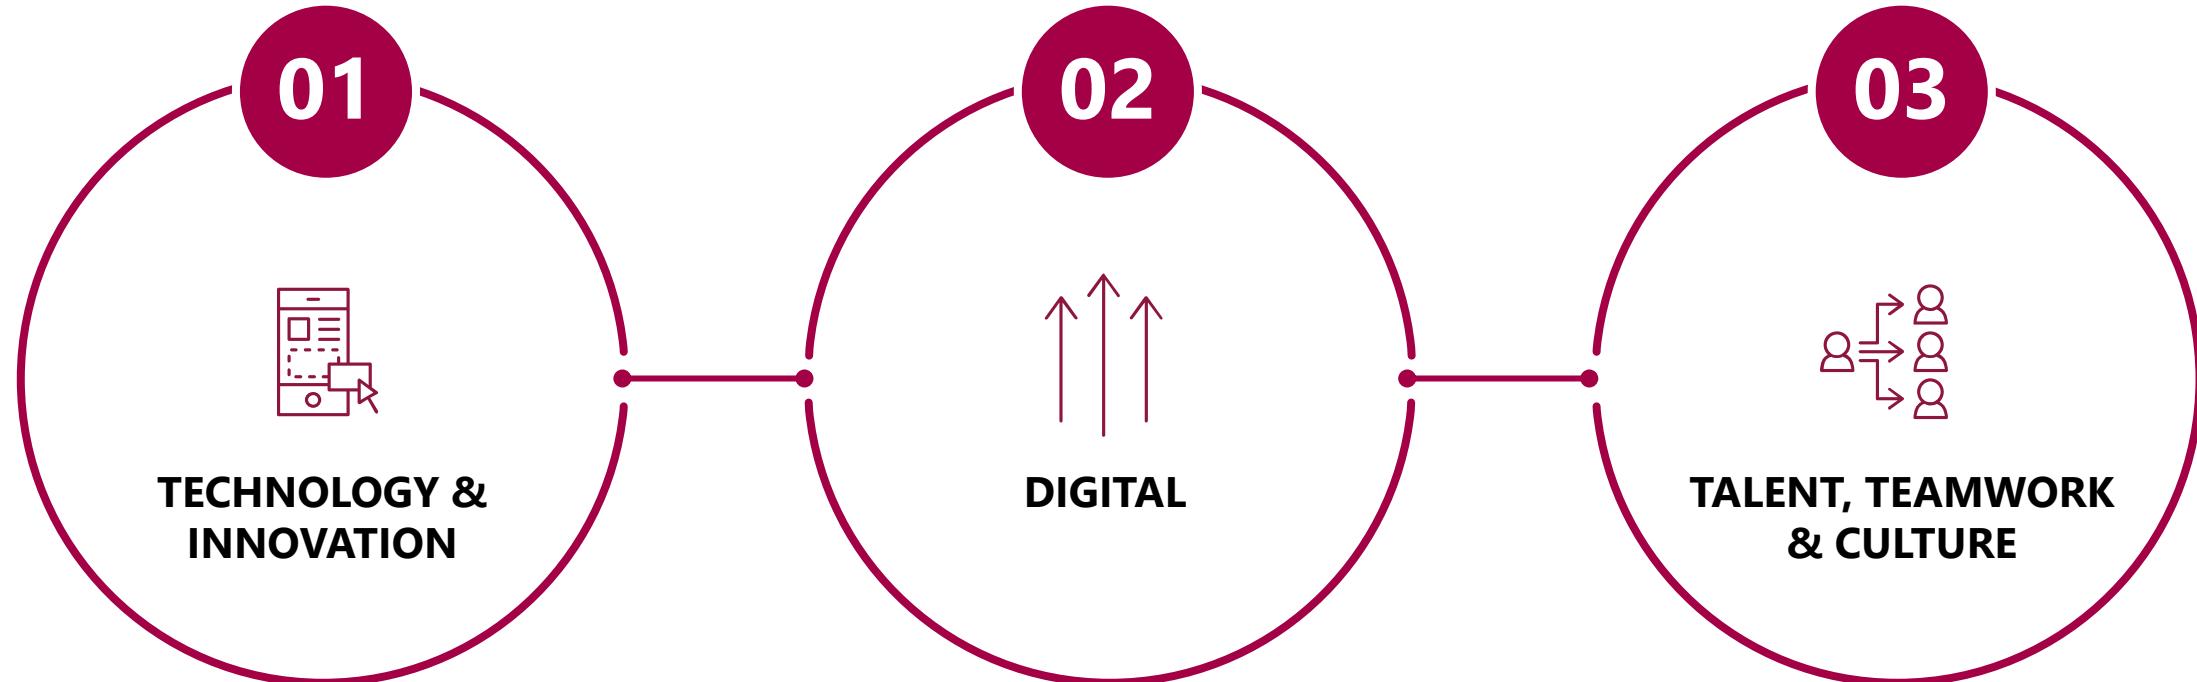

Diversify funding mix supported by a strong low-cost deposit base and disciplined liquidity management

Maintain strict cost discipline with positive jaws from 2027

Target a normalized, sustainable net Cost of Risk from 2028 onwards, and good trajectory for stage 2 ratio reduction

Continue to invest in our digital capabilities, AI, innovation and our people

# The Next Phase of Growth will be Built on Three Key Strategic Enablers

- **Modernize our core banking platforms** to support speed, efficiency, scale, and innovation
- **Further strengthen data and infrastructure foundations** to accelerate automation and advanced analytics
- **Further enhance digital onboarding, servicing, and engagement** across Retail, Wealth, and Wholesale
- **Maintain leadership in digital adoption** by continuously investing in our mobile and online channels
- **Simplify the organization** to enhance speed and accountability
- **Invest in future-critical skills** including data science and AI
- Build a **collaborative, empowered and performance-driven culture**

# Accelerating our AI Journey to create value across the Bank

## WHAT WE HAVE DELIVERED SO FAR

We **launched our AI transformation in 2022**, investing in foundational capabilities including data architecture and GPU compute – **The following are live:**

### AI-powered document processing

*Reduces man-hours through automation of documents processing*

### AI-optimized credit limit increase

*Automates credit limit increases by leveraging historical behavior to boost approval accuracy*

### GenAI powered email assistant

*Classifies customer inquiries and drafts responses, improving call center response speed*

## WHAT'S NEXT

We have identified **AI products** with measurable value potential **across four core drivers** – and will **prioritize them** by **strategic fit and quantifiable impact**, and **executional feasibility**:

### Operating income uplift

Using AI to identify and serve the right customers better with the right products at the right time (incl. cross/ up-sell and next-best actions)

### CX enhancement

Deploying AI assistants to increase personalization across engagements (incl. customer-facing conversational interfaces)

### Process efficiency

Automating key operational workflows such as document processing, credit operations to improve speed, accuracy, and productivity at scale

### Risk & compliance strengthening

Embedding AI in credit, fraud, and compliance processes to enhance detection, reduce manual effort, and proactively manage risk

**Together these AI initiatives will help us to unlock income opportunities, reduce our cost to income ratio and strengthen our risk management**

# Earnings Performance: Year ended 31 December 2025

## Profitability

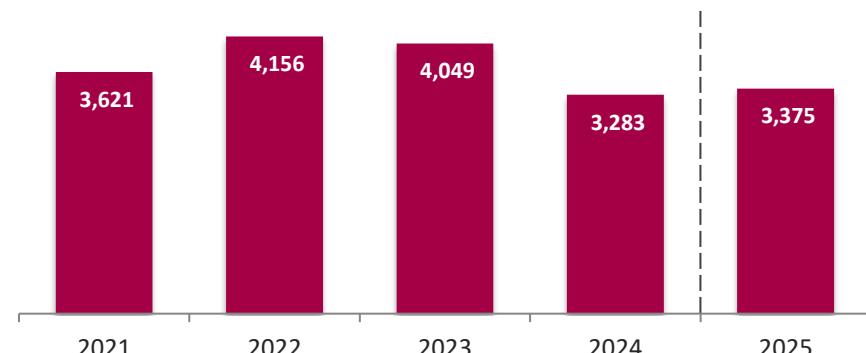

- ◆ Net interest income for the year was QAR 3,413.9 million, up by 2.9%.
  - ◆ Net interest margin is at 2.2% for the year ended 31 December 2025.
  - ◆ The drop in NIM was mainly driven by:
    - ◆ the downwards rate revision towards end of 2024 impacted the NIM for the year 2025, whilst 2024 benefited from the higher rate environment. Further downwards rate revision towards end of 2025 also impacted the NIM.
    - ◆ The NIM compression has also come from the repricing sensitivity from downward movement of interest rates.
    - ◆ Refinancing of some of our medium-term debt issuances which were previously at a lower rate.
- ◆ Non-interest income for the year improved by 10.8%.
  - ◆ This growth is mainly due to 1) retail banking fees including wealth management and banking services and 2) wholesale banking fees, in particular payments.
  - ◆ The overall increase in non-interest income was up mainly due to improvement in Group's core net fee and commission-based income as there was a one-off fees release under Wholesale Banking.
- ◆ Cost to income ratio increased to 29.5% for the year ended 31 December 2025, compared to 27.9% in the same period last year.
  - ◆ The increase is mainly due to higher operating cost coming from domestic and in Turkey.
